Barbara,

Jeff told me yesterday that he had a discussion with Jill and that she told him that Stevens could not do the boundary calculations you expect from them and that NJDEP would ask for HydroQual's assistance. This is the additional HydroQual work I alluded to.

That is what I was told that is all I know.

I will not be in the office tomorrow but Rosella will. Can you find some time to talk to Rosella on Friday?

We really need to understand the issue.

I will have Ursula see when the necessary folks here can be available. We will need Jill Lipoti, Debra Hammond, Helen Pang, me, Pilar Patterson, Marzooq Alebus. Ursula: this meeting is important, so please see if schedules can be adjusted to make one of the times work.

We can use the following Conference Call #
